Shall the Terminus of the Railway be at Victoria and Esquimalt?

To this question we unhesitatingly answer yes. No other place will suit Victorians or the people of Vancouver Island. Everybody — every farmer, miner, trader, and owner of a farm or a town lot, from Comox to this city, is in favor of making the terminus here. Such being the case, whoever comes forward as a candidate to represent any District on this Island, ought to be rejected, if he will not pledge himself publicly to only vote for Confederation in the Council on condition that the terminus shall be made here. If our delegates to Ottawa had been as particular in respect to the railway terminus as the Nova Scotians were before Confederation took place, there could be no question now as to where the terminus will be. For the Nova Scotian delegates distinctly mentioned Halifax as the eastern terminus of the Intercolonial Railway. In the last clause of section 145 of "The British North America Act, 1867," they used these words on the subject of the Intercolonial Railway: "It shall be the duty of the Government and Parliament of Canada to provide for the commencement, within six months after union, of *a Railway connecting the river St. Lawrence with the City of Halifax*, in Nova Scotia, and for the construction thereof without intermission, and the completion thereof with all practical speed." Now, if our delegates had mentioned Victoria and Esquimalt, there would be no necessity now for the people to complete what they have left undone. As it is, all that they did in respect to fixing the terminus will be found in the following extract from the official terms of Confederation:

"The Government of the Dominion undertake to secure the commencement, simultaneously, within two years from the date of Union, of the construction of a Railway from the Pacific towards the Rocky Mountains, and from such point as may be selected, East of the Rocky Mountains, towards the Pacific, to connect the Seaboard of British Columbia with the Railway system of Canada; and further, to secure the completion of such Railway within ten years from the date of Union."

In this condition, it will be observed that the railway is to be commenced "from the Pacific," "to connect the seaboard of British Columbia with the Railways system of Canada." Now, "the Pacific" may mean Bentinck Arm or Barclay Sound, and "the seaboard" may mean the shores of the Pacific Ocean on the west coast or north of this Island, or the shores of the Straits of Fuca, or the Gulf of Georgia. Hence it is too indefinite to satisfy any one—except some one in the government who may have opportunities to get information about the terminus and use it for speculative purposes to the disadvantage of the general public. Under the circumstances it is our interest and our duty to see that *the* terminus of the Railway be mentioned in the terms that will be passed in the Council; and that the terminus be here. We have no notion of dealing with the subject as a mere election cry—a question picked up merely to get some one into the Legislature. On the contrary we are in thorough earnest, and if Victorians will not allow themselves to be misguided they will take up this question in thorough earnest too. On Puget Sound no one knows where the terminus of the North Pacific Railway will be. So there are a number of rival towns setting up claims to become the terminus. All the country is bought up. Yet no one knows where the terminus will be. The state of things there will be duplicated here, if the terminus be not named officially when the Council shall meet. If it be done then, people will not be worrying their heads about New Westminster, Burrard Inlet, Bute Inlet, Barclay Sound, Bentink Arm, or Victoria, being made the terminus. The thing would be definitely settled, and the settlement of the country would go on rapidly. Let Victoria be named now as the terminus, and real estate would advance at once, people would rush in, and by the time that the first sod of the road shall have been turned, two years hence our town would be doubled in wealth and population. But let the terminus be undecided, and so will every one in Victoria. To get the matter settled in our favor we have to take the question in hand at the city and district elections. It is for the electors to say,—and if all Vancouver Island shall pronounce in favor of Victoria, here it will be. It is not a question with us of engineers or money to construct the railway. Canada has to build it, if she wishes to get this country. So let her find the means, but let us find the terminus. A public meeting ought to be called forthwith to take the sense of the people on question, and select candidates to carry out their views.

MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub, and let them soak twenty or thirty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any article very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm as your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.

The Daily Standard.

Monday, October 17, 1870.

RUNAWAY.—On Saturday afternoon, two small children (a boy and girl) were sent to town from the Royal Oak to Bunster's brewery on Johnson street, with a wagon and two horses. The children got their keg of beer and were returning home when the horses became frightened and ran down Johnson street at a tremendous speed. Both the occupants were pulling on the reins, trying to stop the horses, but were unsuccessful; and in a few minutes they were both thrown out of the wagon violently on the ground. Fortunately, they were more frightened than hurt. In front of the Arcade Saloon, the wagon came in contact with a cart, which upset it, the horses turning a complete somersault. They remained on the ground until released by a number of persons standing by. The harness was a little broken, and after being repaired, a man kindly volunteered to drive the children home. Parents ought to be more careful, and not allow their children out with such wild horses. It is very fortunate that both of them were not killed by the fall from the wagon.

PRIZE SHOOTING MATCH.—On Saturday morning at 11 o'clock, the Victoria Rifle Volunteer Corps, in uniform, met at the butts at Clover Point, for the purpose of contesting for the Governor's Cup and Mrs. Musgrave's Purse, valued at $20. The day was bad for shooting on account of the wind blowing so hard. In the afternoon a large number of people were on the ground to witness the match, among whom we noticed His Excellency the Governor and Mrs. Musgrave. There were only ten entered for the Governor's cup. Several good shots were debarred on account of not complying with the regulations. The ranges were 200, 500 and 600 yards, five shots at each range. The same kind of target as that at Wimbleton was used at the 200 yards' range. The cup was won by Corporal John Wilson, with a score of 26. Twelve entered for Mrs. Musgrave's purse, ranges 300 and 500 yards, common target, seven shots at each range. Private Butler won the purse with a score of 28.

FROM THE MAINLAND.—The steamer Enterprise, Capt. Swanson, arrived at 10 o'clock on Saturday night, from New Westminster, having been detained there waiting for the Cariboo express. She brought 25 passengers, a Cariboo mail and express and $35,000 in treasure. Among the passengers were Mrs. Dickson, Mrs. Franklin, Mrs. Savage, Messrs. J. Trutch, Parsons, Patterson, Andrews, Hicks, Evans, Dr. Bellamy, Capt. Ella and 10 Chinamen. The Onward, on her last trip to Yale, burst a steam pipe, and, consequently, was detained. She arrived at New Westminster at 3 o'clock on Saturday afternoon.

THE ALHAMBRA.—This place of amusement was crowded on Saturday evening, and we must say that every one of the performers did their best to give general satisfaction to the audience, which they did, if one were to judge from the applause which they received. Mr. Campbell, the champion clog dancer, gave several of his splendid dances, and was encored several times. It is worth fifty cents to see him dance. To-night there is a very attractive programme, and the performance will wind up with the celebrated song "Shoo Fly, don't bother me," by the Company.

THE ELECTION.—As will be seen by reference to our advertising columns the nomination for two members to serve in the Legislative Council for Victoria city will take place on the 14th. The nomination for Victoria district will take place on the 5th, at the Victoria District School-house, top of Fort street. If a poll is demanded, it will take place on the 14th November, in the several districts mentioned in the notice.

SENTENCED.—The Court of Assize met on Saturday morning, at 10 o'clock, for the purpose of pronouncing sentence on Samuel Braverman, who was found guilty of arson on Friday by the petit jury. Judge Crease, in sentencing the prisoner (who protested that he was innocent,) remarked upon the graveness of the charge, and sentenced him to penal servitude for life; after which the Court adjourned till this morning, at ten o'clock.

FOUND DEAD.—A man named Thos. Smith was found dead in a house on View street, yesterday afternoon. The deceased has had the consumption for some time, and which was, no doubt, the cause of his death. He was a native of London, England, and came to this Colony in 1862. Previous to his coming here he was clerk in the Bank of England, and was highly connected at home. An inquest will be held this morning.

FOR THE NORTH.—H. M. Ship Sparrowhawk, with His Excellency the Governor on board, will leave on Thursday, for a visit to Knight's Inlet, Metlakatlah, and Stickeen. She will be absent about three weeks. All the Indian troubles along the coast will be investigated by the Governor, and a satisfactory arrangement made with the Indians, if possible.

FROM BURRARD INLET.—The bark Emile de Girardin arrived on Saturday morning in Royal Roads from Burrard Inlet with 326,000 feet of lumber bound to Iquique, whence she will sail this morning. The steamer Emma also arrived on Saturday from the Inlet. She reports the Pochahontas loading spars at the Hastings Mill. The wharf there has been thoroughly repaired and is now in good order.

MAINLAND ITEMS.—The New Westminster Rifle Corps shot for the prizes on Saturday, at New Westminster. The Hyack picnic takes place on Tuesday. The contract for erecting the school-house at Chilliwack has been awarded to C. W. Crafton. Several new settlers are leaving for the Chilliwack valley.

CARIBOO.—We learn from a gentleman who arrived from Cariboo on Saturday that the mining news is about the same as what appeared in the *Sentinel* of the 1st October. For some unaccountable reason, the *Sentinel* of the 8th inst did not arrive on Saturday; but we learn that the news is unimportant.

DRUNKENNESS.—The usual number of drunken Indians were to be seen on the streets yesterday afternoon. In the evening some disgraceful scenes occurred on some of the principal streets, when people were coming from church.

FOR BURRARD INLET.—The steamer Emma will leave this afternoon for the Hastings and Moody & Co.'s mills, Burrard Inlet, with a full cargo of general merchandise for the use of the stores at the mills.

THE BOAT ACCIDENT.—On Saturday the fishermen who went in search of the unfortunate men who were drowned on Thursday, returned. They were unsuccessful in their search for the bodies.

THE French bark Nancy cleared from San Francisco for Burrard Inlet on the 15th, to load lumber for Shanghai.

LOS ANGELOS, Oct. 14.—A meeting was held last evening to express the public sentiment of respect to the memory of the late Gen. Robt. E. Lee. The calling was by men of all shades of political opinions.

SAN FRANCISCO, Oct. 14.—The Continental makes the third steamer lost by the N. P. T. Co. within a year. The Continental was the newest and most seaworthy, having been built in 1862.

Lord Harvey, Hon. Cyril Flower, and Henry Stratt, M. P., of England, are here, and propose spending a few weeks in "doing California."

SAN DIEGO, Oct. 14.—The Panama steamer Colorado landed twenty United States soldiers at this place, Lieut. J. Lawson commanding. By the Colorado we get the following particulars of the loss of the Continental on the night of the 9th of Sept.:

The steamer Constantine signalled and notified us of the loss of the Continental and the passengers, off Cape St. Lucas, on the night of the 9th, and commenced taking the wrecked passengers—80 all told—on board the Colorado. All were in a very destitute condition, none of the passengers or crew having saved anything but what was on their persons. The Continental left Mazatlan on her return trip to San Francisco on the 22d, on which night she encountered a heavy gale while crossing the Gulf of California. For a time it blew a perfect hurricane, the wind coming from every quarter of the compass. The ship labored heavily in the chopsea. For a time the steam pumps kept the leakage under, but the coal boxes parted, letting the coal loose, which got into the pumps and effectually closed them. The passengers and crew then commenced to throw the cargo, which consisted of salt in bulk, and hides, into the sea. They worked incessantly for 12 hours, but were unable to keep the water from rising in the hold, and until the fires were extinguished had strong hopes of saving the vessel. The scene now, was said to have been one of the wildest excitement; some of the passengers threw their gold into the ocean, and in despair cried to Heaven for aid. Very few ladies were among the passengers, and life preservers were used, in which they jumped into the small boats. Orders were given to take to the boats on the night of the 28th, and they remained in close proximity to the steamer until 9 a. m. of the 30th, when they left her to her fate. It is supposed she went down on the night of the 30th, as on the morning of Oct. 1st no signs of the vessel were discernible. Don Rubion of Mazatlan and daughter were on board. His daughter was safely put in one of the boats, which separated her from her father whom she beseeched to join her, but he persistently refused to leave the ship, and those on board appear to have clung to the ship with a mad desperation, amounting to frenzy. One stewardess was among those who remained on the ship, and an American lady with two children could not be induced to join the boats. A Mexican boy took the two children and jumped overboard and reached the boats with both his charges, in safety. No provisions were put in the boats. One sardine each and a little apple jelly was all that any of them had during the time that they remained in the boats. The Ossipee picked up three men who were found floating on a raft in the vicinity of the wreck. Seven persons perished in the steamer, and one man was crushed between one of the small boats and the side of the steamer. Of the six boats only three of them landed at St. Lucas, the others were driven up the coast, two of them for forty miles north of their landing place, and their occupants had to make their way over the burning sands without a drop of water to Cape St. Lucas, at which place slaughtered cattle and other kinds of provisions were issued with a liberal hand, and everywhere the sufferers were kindly cared for. Dr. S. Woodbridge of San Francisco, attended and nursed those who were in feeble health. Blame is attached to Capt. Dall for deserting the ship during the night. The ship carpenter makes the assertion that the timbers were rotten and unsafe and that the ship was liable at any moment to go to pieces. Great credit is given the officers and passengers of the Colorado, who divided their clothing and raised subscriptions for the relief of the sufferers.

Europe

LONDON, Oct. 14.—The following advices received here from Tours left that place on Wednesday evening: All the lines of communication towards Tours are still open.

The commander of the 15th corps has made an official report to the Government of the battle before Orleans. He says the fighting was desperate. The Prussian artillery literally overwhelmed us. For three hours, however, the enemy was held in check, when a flank movement compelled our retreat, which was effected in perfect order.

The terrible artillery fire of Fort Mont Valerein has totally swept the country round about six killometers. The Prussian works have been destroyed. All the batteries the Prussians have erected against Mont Valerein have been annihilated. On the north the Prussians have been driven back as far as Deville and Bonneville. The entire peninsula around Geneville has been taken from the Prussians by a cavalry reconnoisance, and is now in the hands of the French. On the east of Paris a lively cannonade has been maintained towards Boudej. The Prussians have been driven from Campiegue for more than three miles east of Vincennes. The Prussian circle around Paris is therefore expanding daily, instead of contracting. The Parisians are greatly encouraged.

The Prussians report a mutiny imminent among the French soldiers at Metz.

LONDON, Oct. 14.—A dispatch from Versailles yesterday, dated via Berlin was received to day containes the following: The credit for arming the German people has been raised to 23 millions.

Prince Fredrick Charles occupies the house of Prince of Moskowa. The Royal headquarters are at the west of the beleagured city, those of the Crown Prince are to the east.

TOURS, Oct. 14.—Nothing has been received to-day from Orleans or Paris.

A dispatch from Sub-Prefect, of Point Leugue, dated Wednesday, confirms the report of the successful sorties of Bazaine, who had burned five villages which had been giving shelter to the Prussians, dislodging the enemy from several positions. At the same time Canrobert made a successful sortie on the left bank of the Moselle river.

VERSAILLES, Oct. 13, via BERLIN, Oct. 14.—The French shelled and wantonly fired the palace of St. Cloud.

Ten French battalions made a sortie from Paris to-day, but were easily repulsed by the 2nd Bavarian Corps, which lost only 19 men.

LONDON, Oct. 13.—A detachment of 30,000 Germans, under command of Prince Albert, with their artillery, are marching on Rouen, and making exhaustive requisitions on the way.

The Prussian Government has ordered the appraisment of private property at Strasbourg.

TOURS, Oct. 14.—A dispatch from Bonneville reports that the Prussians lately at Villeauble are now moving on Chatteudin, where the Mobile Guards are ready to receive them.

Advices from Metz show that the Prussians occupy Verdun and villages around the city, but hold no position within 20 kilometres of the fortifications.

Bazaine made a sortie on Saturday last, in which he captured 600 oxen and 500 sheep from the enemy.

The enemy maintain a strong garrison at Nancy.

LONDON, Oct. 14.—Amiens is threatened by the Prussians, and is preparing for a vigorous resistance.

The National Guard have gallantly but vainly defended Epernal, but finally had to retreat toward Virtiny.

TOURS, Oct. 14.—The following official dispatch has been received by the Minister of the Interior:

"No Prussians at Beaugency, but they have occupied Menny in force."

ST. QUINTIN, Oct. 13.—The Prussians have commenced the bombardment of Soissons, and the town is preparing to stand a siege.

NEUFCHATEL, Oct. 13.—A force of Prussians 7,000 strong, is at Epernal.

Ten trains full of Germans have passed the Meuse on their way to Paris.

LONDON, Oct. 14.—The German garrison of Steusy was captured by a French force from Montmedy, consisting of 60 men.

The Prussian videttes retreated from the Mobile Gardes at Martency.

The activity of Bazaine is undimished, and sorties of the garrison are frequent.

The military movements of late in the Prussians camps and within the walls of Paris, indicate that a great event is imminent.

A special dispatch from Hague says that great agitation prevails, consequent upon the discovery that the King was about to declare war with Prussia. There has been a row in the Cabinet, and the King was told he must not take the initiative. The Crown Prince warned the Ministers that if they did not take sides now Holland would regret it ultimately. The Cabinet appealed to the people, and petitions from all parts of the land in favor of giving the States-General and not the King the right to declare war. A majority of the population are with the Crown Prince.

The rumored declaration of war against China is contradicted.

LONDON, Oct. 15.—Deserters from Metz report that the bread and salt are entirely exhausted. Other provisions are still plentiful.

The formal siege of Soissons and Verdun has already commenced, and the fact has been developed that both fortifications are well supplied with artillery and experienced gunners.

Lieut. Gen. DeBeyr, the Baden Minister of War, has been appointed to command the Baden contingent.

The Prussian earthworks before Fort Mont de Valerien are close to the French garrison, whose fire is incessant. The Germans are generally passive, and will remain so until all preparations for a general bombardment are complete.

The sorties of the French at Paris have all been successfully repulsed.

A siege train of heavy guns has just arrieved before Paris from Germany.

Gen. Burnside returned to the Prussian headquarters yesterday, and is expected in Paris again to-morrow.

It is said that negotiations looking to peace, reportee to be going on last night, are unfounded.

A rumor was in circulation that Gustave Fleurens would make a demonstration with a command of the National Guard. As a precaution several battalions of the National Guards were placed in the Hotel de Ville. The commander-in-chief will remove Fleurens from command of the 5th battalion National Guards.

South America.

LISBON, Oct. 14.—The mail steamer from Rio Janeiro brings dates to Sept. 22d: The troops of the Argentine Republic defeated the insurgents in two engagements. There has also been an undecisive struggle between the Montevideans and the rebels.

Eastern States.

NEW YORK, Oct. 14.—The race between the yachts Dauntless and Cambria, twenty miles to windward and return, was won by the Dauntless by twelve minutes, although the Cambria at one time led by three miles.

LAST NIGHT'S DISPATCHES.

Europe.

TOURS, Oct. 15.—No official news has been received from Orleans to-day. It is generally understood that there was sharp fighting there yesterday.

A Paris letter of the 11th has the following: The Prussians, in force, are moving southward, and the Mobiles are following to watch their movements. Several deserters have been put to death.

An official order has been issued for the silver plate of the Palace to be coined.

The Government authorities are manufacturing enormous steel guns to carry 9,000 metres.

Much impatience is manifested in Paris by the approach of the Prussians. The Parisians desire, above all things, to be attacked. As there is no immediate prospect of this, the French are preparing to make a formidable attack on the besiegers.

TOURS, Oct. 14.—The following has been officially received: The French made a strong reconnoissance to La Ferte a few days since. The Prussians were encountered, and after a short conflict, driven off. The Prussian camp has been established a San Villon.

NEMOURS, Oct. 15.—A body of Franc-Tireurs attacked a squad of Wurtemberg cavalry, in the forest of Fontainbleau, to-day, killing many. The remainder were pursued to Melan. The Prussian garrison there retreated on the approach of the French, leaving a large amount of provisions and stores.

Garibaldi has arrived at Beauscedo.

Bourbaki has been appointed to a command near Orleans, and has gone forward to his post.

New Brissach is being constantly bombarded. The garrison answer vigorously.

LONDON, Oct. 15.—The Germans attribute the frequency of railway accidents to the French, and will impose a contribution on communities where such accidents occur.

An early meeting of the North German Parliament has been decided upon, to make provision for the war. The appropriations desired are from eighty to one hundred million thalers.

BERLIN, Oct. 15.—The new German loan will be eighty million thalers.

Fears of yellow fever are now abating. No new cases in the city, and only three on Governors Island.

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief, Respectfully,
